WORLD WHISTLEBLOWER DAY

Co-hosted by **The Ethics Institute** (TEI) and **The Whistleblower House** (TWBH), this session brings the gap between policy and lived experience into sharp focus.

The discussion will unpack **key provisions of the draft Protected Disclosures Bill**, highlight critical protection gaps, and include a conversation with a whistleblower family to reflect the real-world impact.

It will also consider the role of organisations in strengthening protection, with a focus on practical responses from both the public and private sectors.

This session is relevant for professionals working in governance, ethics, compliance, and organisational leadership who are focused on strengthening accountability and supporting those who speak up.
